

THE LIGHTEST. THE STRONGEST.

WEIGHT A MINUTE....

When many people think of 'safety boot,' they think of a heavy, chunky and hefty piece of PPE.

Not the case with the Cotswold.

In fact, weighing in at under 650 grams, a size 8 Cotswold boot is lighter than:

A medium-sized loaf of Hovis bread

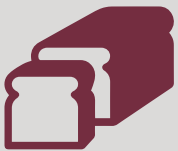

Two cans of baked beans

A Harry Potter hardback book

A box of Kellogg's Corn Flakes

A large bath towel

A pair of jeans

READY FOR TRACTION

The Cotswold STS outsole has been designed to offer the following in slip-safety innovation:

- Non-clogging tread
- Self-cleaning lug pattern
- Anti-trip heel design
- Built in ladder grips

JOIN THE RESISTANCE

The Cotswold upper has been designed and tested to be resistant to:

- Diesel
- Manure (Oleic acid)
- Fuel Oil (Sole)
