

# VT151 ACTIVE

BLACK / WHITE SAFETY TRAINER

A designer trainer combining the latest thinking in safety and sports technology. Key features include a penetration resistant sole and safety toecap resistant to 200J. It incorporates a reinforced scuff toe for increased shoe life and a slip resistant sole. Lightweight and breathable and with a KPU sports technology upper it's the perfect blend of style and safety.

### CE Specification

EN ISO 20345:2011 S1P SRC

### Size

6 - 12 (39 - 47)

### Upper

KPU sports technology upper. Lightweight and breathable. Webbing pull loop. Moulded around reinforced sports mesh. Suede leather toe scuff and heel scuff for increased abrasion resistance.

### Lining

Padded colour. Breathable and moisture wicking to keep the foot cool and reduce the level of sweating.

### Footbed

Full length shock absorbing footbed is contoured to support and cradle the foot.

### Toecap

Steel toe cap.

### Protective midsole

Composite midsole.

### Sole

Dual density PU sole. Lightweight and shock absorbing/cushioning.
